Hygiene Technology and Cleaning Solutions

FaberChemical

Professional Hygiene Solutions

"Faber Chemical & Medicine" is a chemical manufacturing company founded in 1994 by a team of experienced chemical engineers. Since its establishment, and continuing to this day, our unwavering commitment has been to prioritize environmental protection and human health throughout our service and production processes. Maintaining this continuity, we strive to offer professional hygiene solutions across all areas of life.

Our dedicated R&D team focuses on developing innovative and environmentally friendly products. These products are meticulously designed for various industries, including hospitality (hotels, restaurants, cafés, laundries), industrial production, automotive and aviation, food processing, swimming pools, urban management, medical and veterinary hygiene, cosmetics, and household cleaning.

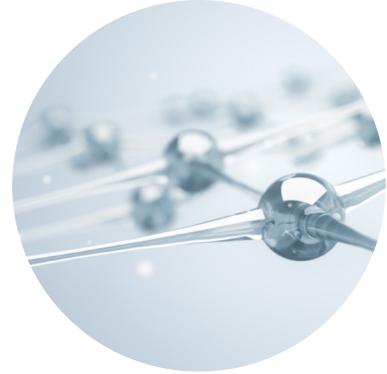

Our production operations comply with numerous comprehensive quality standards: ISO 9001:2015, ISO 10002:2018, ISO 14001:2015, and OHSAS 18001:2007. Additionally, we adhere to Good Manufacturing Practices (GMP), hold GİMDES Halal certification, registration documents from the Ministries of Customs & Trade and Agriculture, as well as V-Label (vegan) certification. Our production facilities also meet GSM regulations.

With a wide product portfolio, we serve the domestic market through a network of dealers and an experienced sales department. We also actively export to Europe, the Middle East, the Gulf countries, Turkic states, Russia, the Far East, and African countries.

Through our dosing and dilution systems, we minimize cleaning staff's direct contact with chemicals. Environmentally responsible production methods enable us to provide end-users with high-quality, cost-effective (less water consumption, energy saving), and hygienically advanced solutions.

Our company is dedicated to maintaining the highest hygiene standards by offering customized hygiene training programs, developing innovative products, providing professional consulting, and comprehensive after-sales technical support. We are always ready to deliver complimentary practical and theoretical training sessions to our valued customers.

Wishing you a clean and healthy environment,
"Faber Chemicals"

Driven by innovation

From the very beginning, we have passionately pursued the creation of the best solutions through our commitment and forward-thinking approach.

Creating value on a global scale

We strive to generate value not only within our own country but also worldwide by implementing modern technologies and advanced expertise.

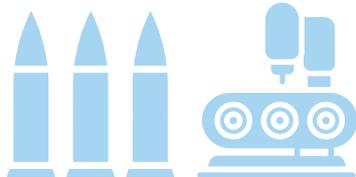

Defense Industry Hygiene & Care

Fastec **Mec 200**

Degreaser and Cleaner for Brass, Copper, Lead and Similar Metal Surfaces

Cleaning liquid product designed for the purpose of removing unwanted grease, dirt and other contamination from the outer surfaces of metal parts such as brass, copper, lead, tombac by vibration method.

- Prepares the metal parts for processing before painting and prevents the paint from spreading.
- Prevents blackening of metal equipment thanks to the inhibitors it contains.
- No negative impact on the environment and human health.

 USA EPA APPROVED

Customer Reference:
FIRST BREACH INC.

Product Code: FTC06.068.30
Packaging: 30 Kg (27,7 L)
Per Box: 1 pc

Fastec **Mec 60 Plus**

Welding, Deburring Cleaner

For use in deburring cleaning process during production of lead and copper products.

- Designed for Vibration Machines: Specifically developed for use in vibration cleaning systems to effectively remove burrs and contaminants during the production of lead and copper products.
- Concentrated Formula: A highly concentrated cleaner that ensures thorough cleaning while allowing for economical dilution and extended usage in industrial settings.

Product Code: FTC06.073.30
Packaging: 30 Kg (23 L)
Per Box: 1 adet

Fastec **Mec 450**

Lacquer Cleaning Solvent

Specialy developed for lacquering machines in bullet production lines.

- Residue Removal: Effectively eliminates lacquer build-up and deposits from system components, ensuring smooth operation and preventing clogging.
- Safe to Use: Formulated to be non-flammable and non-corrosive, making it suitable for use on delicate surfaces and in various industrial environments.
- Ready Formula: Comes pre-mixed and ready for immediate application, featuring a stable, non-flammable solvent base for safe and efficient cleaning.

Product Code: FTC06.052.30
Packaging: 30 Kg
Per Box: 1 pc

Acidex **ZMPT 01** Rubber Stain Remover Cleaning Fluid for Aircraft Runway Surfaces

For use in removing oils, soot, carbon, fuel, grease stains and especially rubber tire tracks on concrete surfaces of airplane runways.

- Foam Control: Foam-controlled formula suitable for all types of washing and cleaning machines, including industrial systems.
- Surface Safe: Safe on runway lines, asphalt, concrete joints, and lighting cables—causes no damage with regular use.
- Non-Flammable: Does not flash, burn, or flare under normal operating conditions.

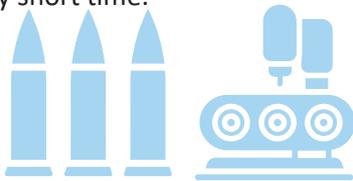

Product Code:	ACX06.026.30	ACX02.058.20
Packaging:	30 Kg (25 L)	20 Kg (16 L)
Per Box:	1 pc	1 pc

Fastec **Faclean Aqua Plus PSV 100** Concentrated Water Based Rust and Corrosion Preventive

Passivation solution that covers the surface of stainless steels and metals with a protective layer of microscopic fineness against corrosion.

- Used safely in all metal groups. Prevents corrosion and corrosion formations caused by environment.
- Economical due to being water-based and concentrated.
- Added to the final rinsing water in rotary drum machines and vibration machines.
- Neutralizes acid residues that may occur on the surface of the final product and prolongs the shelf life of the product.
- Resulting passive layer is homogeneous, impermeable and protective.
- Passivation solution for use after pickling, performs the coating process in a very short time.

Product Code: FTC06.015.30
Packaging: 30 Kg (26,6 L)
Per Box: 1 adet

Acidex **Ice Remover 800**

Aircraft Runway Cleaner - De-icing and Anti-freezing Potassium Acetate Based Solution

For use in prevent the negative effects of snow, ice and frost on asphalt and concrete surfaces.

- Fast and Effective Defrosting: Due to its potassium acetate-based formula, provides fast defrosting.
- Surface Friendly: Dissolves snow, ice or frost without damaging the asphalt and concrete surfaces of airstrips.
- Environmentally Friendly and Safe: Formulated with environmentally friendly ingredients, provides minimal negative impact on the environment and offers a safe use.

Product Code:	ACX07.003.25	ACX07.003.30
Packaging:	25 Kg (19,84 L)	30 Kg (27 L)
Per Box:	1 pc	1 pc

Acidex **Ice Remover 1000**

Aircraft Runway Cleaner - De-icing and Anti-freezing Glycol Based Solution

High performance anti-freeze and de-icing solution for airstrips, asphalt roads and concrete pavements.

- Effective Deicing and Prevention: Thanks to its propylene glycol-based formula, it quickly melts ice and provides long-lasting protection against black ice and hidden ice formation.
- Surface-Friendly: Eliminates snow, ice, and frost without damaging aircraft runways, asphalt roads, concrete sidewalks, or epoxy floors.
- Free from Salt and Urea: Formulated in accordance with civil and military aviation standards.

Product Code:	ACX07.001.20	ACX07.001.5
Packaging:	20 Kg (19,21 L)	5 Kg (4,8 L)
Per Box:	1 pc	4 pcs
